

# CompuServe Information Service Subscription Information

Here are answers to the most common questions new users have about the CompuServe Consumer Information Service. This information is accurate as of October 1, 1983. CompuServe reserves the right to modify any of its services, offerings, rates, operating rules and service terms at any time in an effort to provide the highest quality information service possible.

## What do I get free on CompuServe?

Within your package, you will find a FREE CompuServe SNAPAK containing a User ID number and secret password good for a sample subscription to the CompuServe Consumer Information Service. Included is one FREE Standard Service connect hour at 300 baud, plus the opportunity to sign up as a CompuServe active subscriber without any initial subscription charge. As an active subscriber, in addition to having full retrieval capabilities you will receive a FREE monthly copy of our UPDATE newsletter which is dedicated to helping you get the most from your Consumer Information subscription and a FREE introductory subscription to our TODAY magazine which keeps you informed on videotex and computer industry news.

## How can I become an active subscriber after I use my free sample subscription time?

You may become an active subscriber during your sample subscription hour or up to 90 days afterwards by logging into the Consumer Information Service and entering your subscription information which includes your name, billing address, telephone number and billing option. Whether you subscribe during your sample subscription hour or after, once you have completed your on-line information CompuServe will generate and mail a "second" password to you at the address you entered. (This second password will be effective the date printed on the password sheet.) To complete your subscription process, fill in the "Service Agreement" found in your SNAPAK, sign and mail it in the postage-paid envelope also found in the SNAPAK. If you have followed all the on-line subscription instructions, you will become an active subscriber upon the effective date of your "second" password.

## How am I billed for using CompuServe?

Active subscribers are to have a billing/mailling address within the 50 United States, Puerto Rico or Canada. Connect time, purchases, supplementary communications surcharges, and/or premium program charges are totalled and billed once a month. You have the following billing options:

- VISA
- MasterCard
- CHECKFREE (U.S. and Puerto Rico subscribers only)

The VISA or MasterCard option allows your charges to be sent to your VISA or MasterCard account and billed each month on your normal VISA or MasterCard statement. The CHECKFREE option allows your bank to pay your CompuServe charges each month from your bank checking account, after you receive a billing notice from CompuServe. Active subscribers can view their billing detail while on line by selecting "Reviewing Your Charges" under the User Information menu.

## What are the CompuServe Consumer Information Service Rates?

You will find rates information on the reverse side of this sheet as of the date of printing. You will find the most current rates on line under User Information.

## Do I have to dial long distance to access CompuServe?

No, not if you live within the local dialing radius of one of the many CompuServe network locations found in most major metropolitan areas within the continental United States. A list of CompuServe network telephone numbers has been included with your SNAPAK. To active subscribers, CompuServe also provides access to the Information Service through supplementary networks. Unlike the CompuServe network which does not incur any additional charge, access through a supplementary network will incur a communications surcharge. The most current information on all the networks can be found on line under User Information.

## At what baud rate should I set my modem to use the CompuServe Consumer Information Service?

Your computer or terminal and modem should be set at 110 through 300 baud. Communications at 1200 baud is available to active subscribers at a higher connect hour rate.

## What are the times I can use CompuServe?

While using your sample subscription, you can access during Standard Service hours from 6 p.m. to 5 a.m. Monday through Friday, all day on weekends and announced CompuServe holidays. Additionally, active subscribers can access during the Prime Service hours of 8 a.m. to 6 p.m. Monday through Friday at a higher connect hour rate and upon the effective date of your second password.

## Are there any instructional guides I can purchase?

Active subscribers can purchase instructional guides, CompuServe VIDTEX software and other CompuServe products while on line and have them sent to the address we have on file. While using your sample subscription, you can view the items available and their descriptions.

## Once I become an active subscriber, where can I get help if I need it?

There are a variety of ways to get assistance, many on line! Our more seasoned subscribers have found the the Special Interest Groups (SIGS) can be a wealth of information on specific topics and the CB Simulator service provides "live" communications with other users who often are eager to help. At most prompts on the service, you can obtain information and/or instructions by entering the word "HELP." If you need assistance from CompuServe, we have a Customer Service staff available between 8 a.m. and midnight Monday through Friday, and between 2 p.m. and midnight on weekends. Customer Service can also be reached via FEEDBACK found under User Information (you are not billed for connect time while in FEEDBACK). Your questions will be answered via EMAIL to your User ID number within just a few days. Your most immediate problems can be handled by calling Customer Service at the following numbers.

614/457-8650 from within Ohio and from outside the contiguous U.S.

800/848-8990 from outside Ohio and within the contiguous U.S.

# CompuServe

# CompuServe Consumer Information Service Rates

Effective September 25, 1983

## Connect Rates (per connect hour)

	Prime	Standard
Up to 300 baud:		
U.S. and Canada .....	\$12.50	\$ 6.00
1200 baud:		
U.S. and Canada .....	\$15.00	\$12.50

Connect time is billed in one minute increments, with a minimum of one minute per session. All rates exclude local telephone charges (e.g., message units, long distance, etc.).

## Communications Surcharges

	Prime	Standard
CompuServe number .....	none	none
TELENET®:		
from contiguous U.S. ....	\$10.00/hr.	\$ 2.00/hr.
TYMNET®:		
from contiguous U.S. ....	10.00/hr.	2.00/hr.
from Alaska .....	20.00/hr.	20.00/hr.
from Hawaii .....	10.00/hr.	10.00/hr.
from Puerto Rico .....	15.00/hr.	15.00/hr.
DataPac (through TYMNET or TELENET)		
from Canada .....	8.00/hr.	8.00/hr.

Communications surcharges apply only when the respective communications telephone line is used for connection. Each location has the option of dialing through its local TYMNET, DataPac, TELENET or CompuServe network access number.

## On-Line Disk Storage Charges

First 128,000 characters .....	none
Additional 64,000 characters .....	\$ 4.00/week (optional)

## Premium Program Charges

Some programs have transaction charges in addition to connect time charges (e.g., MicroQuote™, Quick Quote™, Value Line Database II, Energy, etc.). Transaction charges are described in the on-line introductory information, upon selection of a particular service.

## Line Printer Charges

(standard form size - 14 <sup>7</sup> / <sub>8</sub> " x 11")	
per page .....	\$ .12
postage & handling .....	1.50
minimum charge .....	4.00

## Miscellaneous Charges

Billing Detail .....	\$ 3.50/report
Returned Check .....	10.00 each
Returned CHECKFREE Payment & Request (for non-sufficient funds) .....	10.00/year

The customer is responsible for and will be charged for any overdue account collection expense, including, but not limited to, agent fees, attorney fees, court costs and other associated expenses.

## Billing Options

**MasterCard and VISA** Your Information Service charges are reported to your VISA or MasterCard account, whichever you select. Each month, you will see your CompuServe usage charges on your charge card statement. You make payment to your VISA or MasterCard account. There is no CompuServe billing service charge for this option.

**CHECKFREE** All charges are reported on a payment notice and mailed to you each month well in advance of the payment date. CHECKFREE, on the precise day indicated on the payment notice, sends an electronic request to your bank and asks that your Information Service payment be made from your checking account (not savings account). Afterwards, your bank will indicate this payment on your checking account statement. You will need to provide CompuServe with the name and address of your bank, your checking account number and the bank's Routing Transit number. There is no CompuServe or bank service charge for this billing option. CHECKFREE is available to subscribers with U.S. address only.

## Hours of Operation

(determined by local time at location of network connection)

**Prime Service:** 8 a.m. to 6 p.m. weekdays.

**Standard Service:** 6 p.m. to 5 a.m. weekdays, all day Saturdays, Sundays and announced CompuServe holidays.

Service between 5 a.m. and 8 a.m. weekdays is on an as-available basis.

You can purchase the CompuServe Information Service at participating computer stores across the country. Check with the computer store nearest you, or contact CompuServe at 800/848-8199 or 614/457-0802.

All charges on this rate sheet and over the CompuServe Information Service are listed and payable in U.S. funds.

All information and rates are subject to change without prior notice. For the most current information, select User Information from the main menu of the service.

TYMNET® is a registered trademark of TYMNET Incorporated.

TELENET® is a registered trademark of GTE TELENET.

# CompuServe Information Service Access Numbers

CompuServe's network is the fastest, most reliable method of accessing the CompuServe Information Service and is available at no additional communications surcharge.

Since the CompuServe network is constantly expanding you should check the access telephone numbers found on-line under

the User Information menu to get the latest additions. The CompuServe Information Service also can be accessed through other supplemental networks and generate a communications surcharge.

These numbers are current as of October 1, 1983.

# CompuServe Information Service Log-on Procedures

---

After your computer terminal is connected to a modem (and, if you are using a microcomputer, you are running a terminal emulator program), you are ready to connect to the CompuServe Information Service.

1. **Dial the CompuServe Information Service** access number for your area.
2. When you hear a continuous, high-pitched tone, properly **position the telephone handset in the acoustic coupler** or depress the data button on your modem. If you do not hear the tone hang up and redial.
3. To log on to the CompuServe Information Service, you need your User ID number and your secret password. With this information, **follow the procedures illustrated below** (user entries are underlined in the example):

## Example

**Enter a Control C.** Usually this is accomplished by holding down the Control key while the C key is also pressed. Terminal keyboards vary; for further information see the instructions for the terminal software you are using or your personal computer dealer.

The CompuServe Information Service responds with USER ID. You **enter your personal User ID number** and press the ENTER key (carriage return key on some keyboards.) If there is no ENTER key or carriage return on your terminal, consult the manual for your personal computer or your personal computer dealer.

You are prompted for secret password. **Enter your password** and press ENTER. For security purposes, your password is a nonprinting entry (in full duplex).

NOTE: Unless you are told otherwise, your entries and lines of text will always end by pressing the ENTER key (a carriage return) which feeds the information you have just typed into the computer.

^C

User ID: 70000,11

Password: \_\_\_\_\_

**CompuServe**

## 2. REMOVE ALL STUBS BEFORE OPENING

# CompuServe Information Service Snapak

Expiration date: June 1, 1985

### Welcome to CompuServe

The enclosed User ID number and password enables you to access limited free use of the CompuServe Consumer Information Service during Standard Service hours. Standard Service is from 6 p.m. to 5 a.m., local time at point of network connection. This introductory time will expire 90 days after first logon.

### Before you Begin

CompuServe recommends that you review the accompanying materials for log-on instructions, the telephone number for your area and other important information before accessing the Service.

### How to Subscribe

If you wish to subscribe to the CompuServe Consumer Information Service during or after using your introductory time, complete **BOTH** of the following steps:

- 1) Enter the sign-up information while on-line.
- 2) Complete, sign and return the enclosed Service Agreement.

### This Package Contains:

- ☐ your CompuServe User ID number
- ☐ your secret Password
- ☐ your personal Serial Number
- ☐ Service Terms and Conditions
- ☐ Service Agreement
- ☐ postage paid return envelope

### To Obtain Assistance

For assistance, you may call Customer Service between 8 a.m. and midnight (Eastern Time) weekdays and 2 p.m. to midnight on weekends at 614/457-8650 within Ohio or 800/848-8990 from outside Ohio.

### About Your Password

Please keep your User ID number in a secure place — separate from your password. CompuServe recommends that you change your password often, using two non-related words with a symbol, such as BOAT%TOUCH, for optimum security. **Never give your password to anyone** verbally or over the Service.

### Snapak Expiration Date

The User ID number enclosed within this Snapak will expire on the date shown above. You may trade in an expired Snapak for a valid Snapak by contacting CompuServe Customer Service.

### Warning

The enclosed information is **HIGHLY CONFIDENTIAL**. This package should be opened only by customer after purchase and its contents kept confidential by customer.
